**ENVIRONMENTAL LABELING**

On 3 September 2020, Legislative decree n. 116 declares that all packaging must be "properly labelled according to the methods established by the applicable UNI technical standards and in compliance with the decisions adopted by the Commission of the European Union, to facilitate the collection, re-use, recovery and recycling of all packaging, as well as providing correct information to consumers about final destinations of the packaging. The manufacturers must indicate, in order to identify and classify the packaging, the kind of material used for all packaging, based upon the Commission Decision 97/129/EC."

Now therefore and in compliance with the aforementioned Decision, we list the labelling of the packaging supplied:
